

# **CULTURAL RESOURCES**

## **CONDITIONS OF CERTIFICATION**

**CUL-1** The project shall not cause any significant impact to cultural resources on the power plant site or linear rights-of-way.

**CUL-2** The project has been determined to have the potential to adversely affect significant cultural resources and the project owner shall ensure the completion of the following actions/activities:

1. Provide a cultural specialist who will have access to the site and linear rights-of-way at any time prior to and during ground disturbance.
2. The cultural specialist will provide training to appropriate construction personnel at the site, will install avoidance measures (as necessary), and will be present during appropriate ground disturbing activities. The cultural specialist has the authority to halt construction at a location if a significant cultural resource is found. If resources are discovered and the cultural specialist is not present, the project owner will halt construction at that location and will contact the specialist immediately. The specialist will consult with the CPM and a decision will be made by the CPM within 24-hours as to how to proceed.
